Friday Photo for September 2020

This month for our Friday Photo, we want to make you aware of the Global Strategy campaign to increase the number of individuals who walk alongside missionaries in a financial way. For one week, September 12 through September 18, Global Strategy has matching funds available (up to \$5,000 per missionary) for all new monthly commitments made during this week. We are so grateful for what our office is doing to help missionaries raise support during this time when COVID-19 has had such an impact on the finances of churches and individuals alike.

We have been very proud of our Asia-Pacific missionary team, and now even more so as they have all found ways to keep their ministries going in the face of legal restrictions that range from severe to moderate. If you have about three minutes, we would love for you to watch this video and meet our team of career missionaries by clicking [here](#).

The biggest (but not the only) need in our region right now is support for **Kris and Megan Gilbert**, who minister in New Zealand. Late last year, they made the switch from tentmaker missionaries to career missionaries as it became clear to all of us that their ministry was growing beyond what they could do on a part time basis. They planned to return to the States this summer for fundraising, but restrictions in New Zealand are making it impossible for them to travel. We have been impressed with what they have been able to do virtually with appealing to donors, but they need some assistance. So we would like to take this opportunity to emphasize their need. If you are able to help this young couple reach their funding goals on a monthly basis, you can click [here](#) to help.

With grateful thanks to all of you who keep us funded and in the place where God has called us,

Sincerely,

Don & Caroline Armstrong
